

Primary History: Vikings

Extension Activity - Vikings at Home

Plan the Viking farm year. Start with spring and go through summer, autumn and winter. What would be the most important jobs for each season?

You could try making a model of a Viking house. Why not experiment with using drinking straws for the thatched roof and wattle walls? You might even have a go at making a mini wattle fence, using bendy twigs or grass stems.

Imagine you are a Viking chief giving a feast. What entertainment could you arrange? What food and drink will your guests enjoy? Write out a list of things that might happen during the feast.
