

# Christianity — Easter

## To make a pop-up Easter card

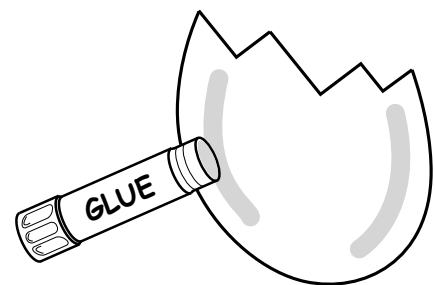

### You will need:

Pop-up Easter card template  
A4 card - three different colours  
Lolly stick  
Yellow card/white card painted yellow  
Paint/crayons/small squares of tissue paper  
Sequins to decorate (optional)  
Glue  
Wobbly eyes  
Orange card for the beak  
Yellow tissue/crêpe paper

### Instructions:

1. Fold one piece of card in half.
2. Cut out the larger, full egg shape and stick it to the front of the card.
3. Cut out the smaller egg shape with the zig zag edge and decorate it.
4. Stick the smaller egg shape over the larger one. Glue the sides only, as shown in the diagram.
5. Cut a chick shape out of yellow or white card, using the template provided. Stick on the wobbly eyes, beak, and some small pieces of tissue/crêpe paper to add texture.
6. Stick the chick shape on to the lolly stick, so that the lolly stick comes about half way up the chick's body. Slot the chick inside the egg, pushing the lolly stick down through the gaps you left between the two eggs.

**Remember to write a message in the card!**
