Environments in Scotland: Birds

Programme Two factfiles

Chaffinch

It lives in hedgerows,
gardens, parks and
wooded areas

Its diet is seeds and
sometimes grain

The male chaffinch attacks
its reflection in mirrors

great tit

its **habitat** is woodlands,
parks and gardens

its **diet** is insects,
seeds and **nuts**

did you know it pecks
through milk bottle
lids to **steal** milk?

OSPREY

its habitat is at or near lakes, rivers or sheltered coasts

its diet is almost entirely fish

its call is a rapid series of high pitched cries

great SPOTTED WOODPECKER

It lives high up in trees

Its diet is worms,
GRUBS, and BUGS

did you know that the
male woodpecker is
smaller than the female?
