A. CONTRIBUTORS AND CONTENT
The tardis lands on the planet of Androzani Minor. The Doctor and Peri go exploring into some caves and get mistaken for gunrunners and arrested. The real gunrunners later attack the army patrol that was guarding the arms. The Doctor and Peri are ordered to be shot by Morgus - a man of considerable power on the planet. Chellak, the Army Commander tries to get Morgus to change his mind but fails. Somewhere on the planet is a man called Sharaz Jek who is able to monitor all that goes on by secret cameras and androids, one of whom has successfully disguised as Salateen, Chellak's deputy. Part one ends with The Doctor and Peri apparently being executed.

A. CONTRIBUTORS AND CONTENT

The Doctor and Peri have been taken prisoner by Sharaz Jek who produced 2 exact replica androids to be executed in their place. Doctor and Peri meet Salateen who is also being held prisoner and he is the one who realises that both of them have Spectrox Toxaemia - a fatal form of fungus poisoning. Although there is an android guarding the prisoners the Doctor outwits him and the three of them escape while Sharaz Jek is meeting with the Gunrunners. The Doctor gets separated from Peri and Salateen during a gun battle with an android and whilst he is looking for them he hides from the gunrunners only to find himself in the middle of an attack by the Magma creature.

A. CONTRIBUTORS AND CONTENT

The Doctor manages to escape from the Magma creature but ends up again prisoner of Sharaz Jek who allows the Gunrunners to take the Doctor with them for interrogation back on Androzani Major. Back at the Army H.Q. Salateen has returned with a very ill Peri but the android version of Salateen realises they are there. Chellak orders a consignment of belt plates to be made up to fool the androids. Back on the spaceship Stotz talks to Morgus who realises something is wrong when he sees the Doctor who is supposed to have been executed. He tells Stotz to stay in orbit. When Stotz leaves the control room the Doctor works on his bonds and manages to free himself and sets about sending the spaceship back to Androzani Minor. Sharaz Jek, meanwhile, kidnaps Peri from Army Hq and Morgus murders the President. The Gunrunners realise what the Doctor is doing and the programme ends with the spaceship about to crash land.

A. CONTRIBUTORS AND CONTENT

The spaceship crash lands and the Doctor escapes. He is chased by the Gunrunners but they turn back when it seems likely that a mud burst is in the offing. The Doctor manages to reach the caves but is by now very ill with Spectrox poisoning. Inside the cave the army find that the belt plates they have manufactured to fight the androids with will not work. Chellak meets Jek and chases after him to his hideout, they fight and Chellak is swept to his death by a mud burst. Meanwhile, Morgus has joined Stotz & co in the spaceship and he and Stotz hatch a plan to find the raw spectrox and share the profits between them. Morgus contacts his office only to find that he has been deposed by his assistant Timmin and is now a wanted man. The Doctor finally arrives at the workshop of Sharaz Jek and realises that Peri is near to death. He decides to go and find the Queen bats and get the milk from one of them which is the only cure for Spectrox poisoning. While he is gone Stotz & Morgus find Jek's hideout. They all fight and all are killed. The Doctor finds the bat and returns to Jek's workshop and saves Peri from being engulfed in flames. He carries her to the tardis and gives her the bats milk. There is only enough for her because he dropped the bottle en route. The Doctor regenerates hearing the voices of past companions. Finally he sits up and talks to a very surprised Peri who has fully recovered.
