### A. CONTRIBUTORS AND CONTENT

Zargo and Camilla receive the Doctor and Romana with superficial cordiality until the Doctor mentions the contents of a thousand-year old spaceship's log they have seen at the Rebel HQ. Left alone, the Doctor and Romana explore the Tower, which they new realise is in fact the lost spaceship from which the log came, gutted of all technology except for the three scout ships which form the nose cone of the Tower. Further investigation confirms the Doctor's fears - beneath the Tower lies a Giant Vampire feeding on blood drained from the bodies of young villagers. Unbeknown to the Doctor and Romana, Adric has fallen under Aukon's evil influence.
